Inc. No. A0001288M

Annual Model Flying Display

Sunday 28th March 2010

To MAAA affiliated members, you're invited to come along and help BRMFC entertain the public with our beloved sport/hobby!

We greatly appreciate your assistance to promote our club locally and aeromodelling in general.

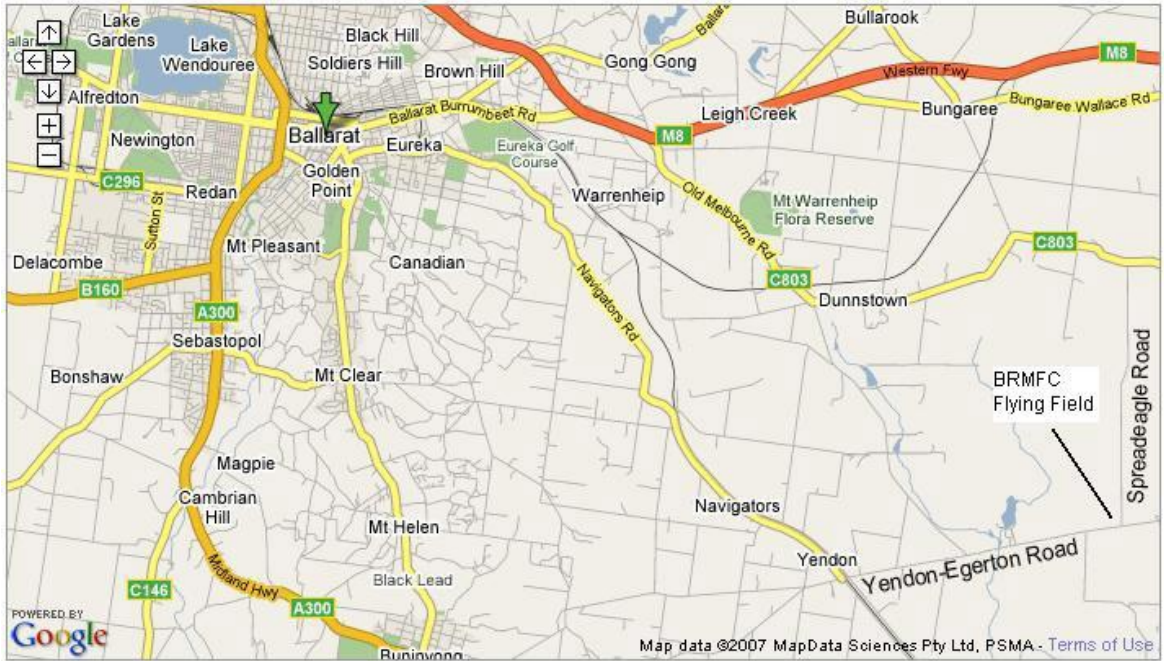

Pilot Entry	FREE Entry – just register at the transmitter tent – don't forget your MAAA card and any heavy model permits. It would greatly assist the organizing committee if you could send an email to say you plan to attend. To do this, go to http://www.startek.com.au/brmfc/AnnualDisplay.aspx and click on the mailto link Display Director .
Flying Format	Segments for scale, sport, fast, slow, and special displays. Novelty and Combat, will be flown so bring a fun model for some friendly competition.
Awards	Prizes will be awarded.
Flight Safety	All pilots and aircraft must be up to Public Display Standard. The Flight Line Director reserves the right to ground any pilot/aircraft that is considered dangerous to the public and fellow modelers. All radios must be certified according to MAAA policy. A transmitter pound and controlled flight line will operate. (2" key board)
Static Display	Large display area, so dust off those hangar queens and bring them along.
Swap Tent	Swap your unwanted treasures for someone else's.
Catering	Hot and cold drinks all day at reasonable prices.
Parking	Plenty of close parking for pilots.

How to get to our flying field

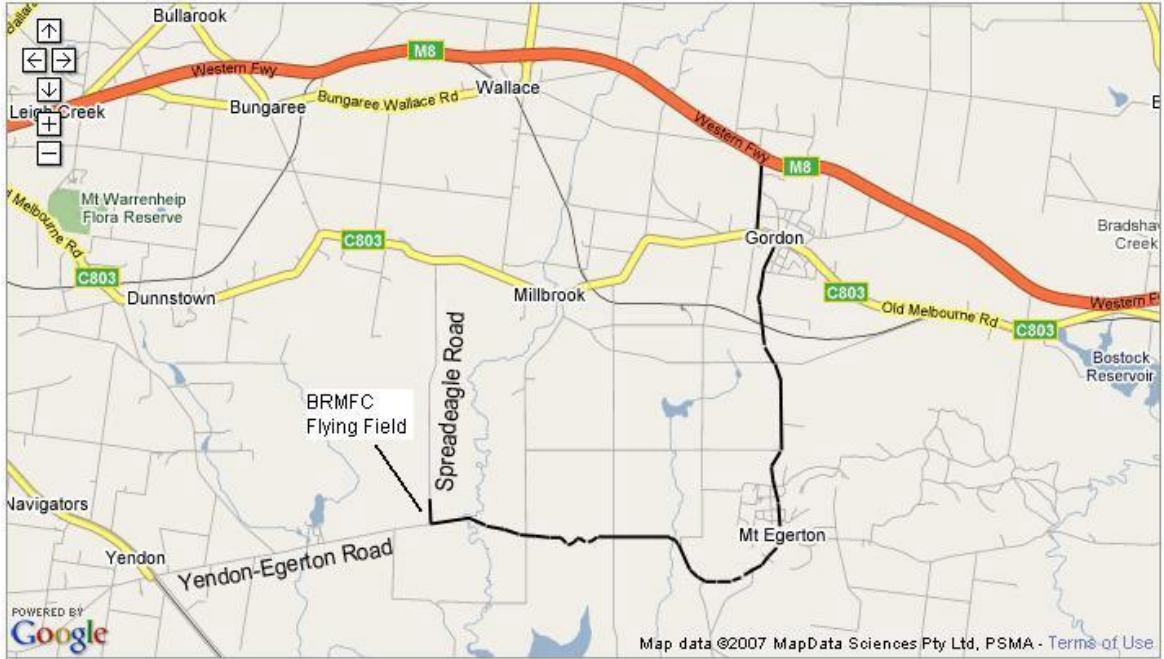

Our field is located at the corner of Spreadeagle and Yendon-Egerton Roads Yendon Victoria. VicRoads Maps 76-J4, 77-B4.

Maps are included on the next page, alternatively go to our web site at <http://www.startek.com.au/brmfc/FlyingSite.aspx> for complete directions.

If coming from Ballarat

If coming from Melbourne

If coming from Geelong
